CPC CC series hydraulic cable cutting tools

- CC-50B with mouth of 52mm, it is convenient for cutting operation inside distribution board chamber.
 - It is applicable to quick cutting of high press PE, IV cable and telephone line
 - High carbon alloy steel blade is solid and durable, with heat treatment of HRC-65 degrees
 - It can be combined with pumps of CP-700、DYB-63A series and etc
 - CPC-40A、FRP insulated bar 20KV/5 minutes can be used for cutting purpose on wire pole
 - CPC-100A is specially used for cutting copper aluminum core armored cable, detached steel core and aluminum bar
 - CPC-40B、CPC-130B blade is made of high carbon alloy steel and is especially used for cutting steel-cored aluminum strand HRC-65 degrees, wire and etc, combined with pumps
 - CPC-40A、40B can cut steel strand rope, steel wire rope and wire.
- High carbon alloy steel blade is solid and durable, with heat treatment of HRC-65 degrees

Model: **CPC-40A**

- Power (ton):7
- Weight (kg):6
- Length (mm):660
- Armoured cable (mm):
- Steel wire (mm):25
- Electrical wire (mm):38
- Copper-cired aluminium strand wire (mm):20
- Telephone cable wire (mm):38
- Packing&Size (mm):755*130*230

Model: **CPC-40B**

- Power (ton):7
- Weight (kg):4
- Length (mm):310
- Armoured cable (mm):
- Steel wire (mm):25
- Electrical wire (mm):38
- Copper-cired aluminium strand wire (mm):20
- Telephone cable wire (mm):38
- Packing&Size (mm):355*90*195

Model: **CC-50B**

- Power (ton):12
- Weight (kg):6
- Length (mm):445
- Armoured cable (mm):
- Steel wire (mm):25
- Electrical wire (mm):50
- Copper-cired aluminium strand wire (mm):
- Telephone cable wire (mm):50
- Packing&Size (mm):350*180*105

CPC CC series hydraulic cable cutter

- CC-50B with mouth of 52mm, it is convenient for cutting operation inside distribution board chamber.
- It is applicable to quick cutting of high press PE, IV cable and telephone line
- High carbon alloy steel blade is solid and durable, with heat treatment of HRC-65 degrees
- It can be combined with pumps of CP-700、DYB-63A series and etc
- CPC-40A、FRP insulated bar 20KV/5 minutes can be used for cutting purpose on wire pole
- CPC-100A is specially used for cutting copper aluminum core armored cable, detached steel core and aluminum bar
- CPC-40B、CPC-130B blade is made of high carbon alloy steel and is especially used for cutting steel-cored aluminum strand HRC-65 degrees, wire and etc, combined with pumps
- CPC-40A、40B can cut steel strand rope, steel wire rope and wire.

High carbon alloy steel blade is solid and durable, with heat treatment of HRC-65 degrees

Model: **CC-50A**

- Power (ton):8
- Weight (kg):6
- Length (mm):610
- Armoured cable (mm):
- Steel wire (mm):
- Electrical wire (mm):50
- Copper-cired aluminium strand wire (mm):
- Telephone cable wire (mm):50
- Packing&Size (mm):350*180*105

Model: **YS-40A**

- Power (ton):8
- Weight (kg):6.5
- Length (mm):610
- Armoured cable (mm):
- Steel wire (mm):
- Electrical wire (mm):50
- Copper-cired aluminium strand wire (mm):40
- Telephone cable wire (mm):
- Packing&Size (mm):657*95*170

Model: **CPC-100A**

- Power (ton):9
- Weight (kg):13
- Length (mm):590
- Armoured cable (mm):100
- Steel wire (mm):
- Electrical wire (mm):100
- Copper-cired aluminium strand wire (mm):
- Telephone cable wire (mm):100
- Packing&Size (mm):600*90*240

●CC-50B with mouth of 52mm, it is convenient for cutting operation inside distribution board chamber.

●It is applicable to quick cutting of high press PE, IV cable and telephone line

●High carbon alloy steel blade is solid and durable, with heat treatment of HRC-65 degrees

●It can be combined with pumps of CP-700、DYB-63A series and etc

●CPC-40A、FRP insulated bar 20KV/5 minutes can be used for cutting purpose on wire pole

●CPC-100A is specially used for cutting copper aluminum core armored cable, detached steel core and aluminum bar

●CPC-40B、CPC-130B blade is made of high carbon alloy steel and is especially used for cutting steel-cored aluminum strand HRC-65 degrees, wire and etc, combined with pumps

●CPC-40A、40B can cut steel strand rope, steel wire rope and wire.

High carbon alloy steel blade is solid and durable, with heat treatment of HRC-65 degrees

Model: **CPC-130B**

- Power (ton):17
- Weight (kg):27
- Length (mm):720
- Armoured cable (mm):130
- Steel wire (mm):
- Electrical wire (mm):130
- Copper-cired aluminium strand wire

(mm):

- Telephone cable wire (mm):130
- Packing&Size (mm):600*90*240
